

Hongjun Yun

Address: 100 Blythwood Rd, Waterloo, Ontario, N2L 4A2

Phone: 226-507-9755

Email: andylang8445@gmail.com

I would like to have a computer programming placement because in the future I want to have a computer programming-related pathway. Before that, I want to find out that this pathway actually fits me. I have learned some programming languages and studied designing the algorithms, so I want to apply these skills to the workplace.

Personal highlights

- High math skills
- High Computer using skills
- Strong Research skills
- Proficient with problem solving
- Good at working independently
- Works well in groups

Education/Training

- Resurrection Catholic Secondary School
 - September 2019 - Currently Grade 12
 - Passed Grade 11 Computer Science course with 94%

Work/Volunteer

- Worth a Second Look
 - Made sandwiches and provided them to the homeless
 - Practiced teamwork and helping others
- TEMS academy
 - Helped new students to adapt to the Canadian schools
 - Helped peers with difficult math concepts

Certification

- Sunrin high school Software Institute for Genius Education program
 - Had interview and test to enter the program
